

Monorail Scale

0990 Monorail Overhead Track Scale

Ideal for Weighing Beef, Pork,
and Lamb

Reduces Weighing Time

Overhead Track Scale For Faster, Simpler Weighing

METTLER TOLEDO

0990 Monorail Overhead Track Scale

- For beef, pork, and lamb processing facilities.
- Easy to install in new and existing rail lines.
- Rugged construction stands up to constant use.

Streamline your meat processing operation with a Model 0990 monorail overhead track scale. This reliable scale is ideal for processing facilities that use overhead rail systems for material handling. Because the scale is an integral part of the rail system, it weighs meat that is being transported along the processing line. Installing an overhead track scale in a new or existing rail system saves time and money by eliminating the need to remove products from the line to weigh them on a separate scale. Model 0990 consists of two hermetically sealed load cells attached to industry-standard meat rail. It is available in stainless steel or epoxy-painted carbon steel.

Options

- Custom rail lengths to meet the requirements of your application

Specifications

Standard Live Rail Lengths	2 and 4 feet (61 and 122 cm)
Available Capacities	1250 and 2500 lb (550 and 1100 kg)
Load Cell Type	Model 0757: Two 350-ohm load cells; hermetically sealed stainless steel
Material	Type 304 stainless steel or painted carbon steel
Junction Box	Stainless steel, IP65
Standard Operating Temp.	14°F to 104°F (-10°C to 40°C)
NTEP Approval	Scale: Class III, 2500d (95-144) Load Cell: Class III, 3000d (96-006)
Hazardous Area Approval	Load Cell: Factory Mutual (3013019)

Features	Benefits
Installed in Rail System	Reduces weighing time and costs.
Compact Design	Requires less headroom.
Self-contained Assembly	Low maintenance – no check rods to adjust.
Hermetically Sealed Load Cells	Maximum protection in harsh environments.
NTEP Certified	Legal-for-Trade applications.
Industry-standard Rail Size	Seamless transition from rail to scale.
